

CONTRIBUTING TO THE SAFETY & SECURITY OF LAND & ENVIRONMENTAL DEFENDERS

Main Activities

Equip twenty (20) leaders of Land & Environment Defenders (LEDs) organizations with skills, knowledge, and tools in risk assessment and mainstreaming safety and security management in their work.

Establish & coordinate rapid response fund and support services to Land & Environmental Defenders.

We shall coordinate distinct protection actors on land justice and create a collective security protection network and also offer technical support to all .

Campaign for and lobby for the safeguard of LEDs nationally.

We shall organize bi-monthly meetings with the stakeholders & LEDs to discuss practical ways to address insecurity of LEDs

Beneficiaries

The project will benefit Land & Environment Defenders (LEDs) from the Albertine region and west Nile region in Uganda.

Direct beneficiaries will be up to 40 land & environment defenders.

Services to Beneficiaries

- Digital Security & Technical Support to LEDs,
- Physical Security Advisory services and
- Emergency Support to LEDs in case of security incidents.
